Fixed the problem

I was about to get another phone, but tried this option instead. Worked great so far. Very satisfied with this purchase.

1 for the price of 2
By Michael Bulwin
You get what you pay for 1 of the batteries held a full charge the first 2 days then it decided it would only last 8 - 10 off the charger without being used and around 1 1/2 hours if being used, the second battery is still holding up for now so I figure I got 1 for the price of 2 this being the reason for 2 stars.

I would not but these again
